## CONFERENCE PROGRAMME

**Tuesday, September 19, 2006**  
**9:00 a.m. - 1:00 p.m.**

### OPENING CEREMONY

#### Presentation of Awards from the Czech Glass Society

Štěpán POPOVIČ, Glaverbel Czech a. s., Teplice, Czech Republic  
**Industrial capacities development trends in float glass production**

Heiko HESSENKEMPER, TU-Bergakademie Freiberg, Německo  
**A one step forming process: A vision with a realistic chance?**

Ivo MATOUŠEK, TU v Liberci, Czech Republic  
**Dynamic loading of glass moulds**

František NOVOTNÝ, Jan STEKLÝ, TU v Liberci, Czech Republic  
**Use of numerical simulations for new hollow glassware development**

Antonín LISÝ, VŠCHT, Praha, Czech Republic  
**Physical modelling of feeder**

Wilhelm KLEIN, Frank SAUERBREY, Sicatec GmbH, Germany  
**Experiences of traditional and progressive carbon and glass matrix fibered material in the glass industry**

František NOVOTNÝ, Marcel HORÁK, TU v Liberci, Czech Republic  
**Graphite moulds in blown glassware production**

**2:00 p.m. - 5:30 p.m.**

Stanislav KOVÁŘ, Dites spol. s r. o., Teplice, ČR  
**Technology of batch preparation into containers**

Norbert KREČMER, Trenčianska Univezita A. D., Trenčín, Slovak Republic  
**Numerical simulation of forming instrument modification during glass forming**

Václav DRAHOŇOVSKÝ, Sklostroj Turnov CZ, s. r. o., Turnov, Czech Republic  
**Recent development of hot end equipment for container glass production**

Josef SMRČEK, Ladislav SCHNAIBERG, ELECTROHEAT s.v.p.d. Praha, CZ  
**Heat convention during glass toughening and annealing**

Karel MARUŠKA, Rolf DANIELSEN, Pavel MIKUŠ, Sklostroj Turnov CZ, s. r. o., Turnov, Czech Republic  
**"LPBB@" glass forming technology**

Stanislav BÁRTA, Jan VÁLA, Sklo Bohemia a. s., Světlá n. S., Czech Republic  
**Manipulator or robot - decision making in Sklo Bohemia**

Pavel JIRMAN, JIM design v. o. s., Jablonec n. N., Czech Republic  
**Contradictions in the development of glass machines**

Adam HOTAŘ, TU v Liberci, Czech Republic  
**Possible applications of Fe3Al-based iron aluminide in glassmaking**
