

Wednesday, September 20, 2006
9:00 a.m. - 1:00 p.m.

Jaroslav MICHAL, Tomáš VLČEK, Sofis a. s., Praha, Czech Republic
Experience of information system applications for quality production monitoring and evaluation in glass production machine lines

Vlastimil HOTAŘ, TU v Liberci, Czech Republic
Glass mould surface quality evaluation possibilities

Jiří STRÁNSKÝ, Ikates, s. r. o., Teplice, Czech Republic
Conformity assessment of glass in buildings

Miroslav CHMELKA, Zdeněk HAUMER, Festo, spol. s r. o., Praha, CZ
Pneumatics are connected with electronics

Jiří NEUHÄUSER, SMC Ind. Aut. CZ, s. r. o., Liberec, Czech Republic
Proportional pneumatic parts in the glass industry and air-hydro systems

Martin LACHMAN, Zdeněk MOTL, Marcel HORÁK, TU v Liberci, CZ
Simulation and control of servopneumatic positioning systems

Marcel HORÁK, František NOVOTNÝ, TU v Liberci, Czech Republic
Automatic handling of thin glass plates

Petr SALAČ, TU v Liberci, Czech Republic
Possibilities of optimization theory regarding the field of glass production

CLOSING OF THE CONFERENCE

OTHER ACTIVITIES

All registered participants are invited to a **dinner party** for participants of the conference and Department of Glass and Ceramic Producing Machines graduates at 7:00 pm on Tuesday, September 19. The party will take place at Divadelní klub Jimm's (Theatre Club, F. X. Šalda Theatre).

Board of the Czech Glass Society session.

INFORMATION ON CONTRIBUTIONS

The presentation time for papers is 15 - 25 minutes (which will be determined by the conference chairman) with the exception of invited lectures, whose length will be 40 minutes.

The presentation room is supplied with an LCD projector, a computer with DVD, an overhead projector and a video cassette player recorder (PAL system). If you require any additional equipment, don't hesitate to contact us.
